Warranty Detailsr

A-Turf Field Projects Include A 3rd Party Insured Warranty From An A-Rated Insurance Company.

Every synthetic grass field we sell and install is covered with an insured warranty from an A.M. Best A-Rated insurance company. This added protection increases our value to each client.

No other synthetic grass manufacturer-supplier offers more comprehensive coverage than A-Turf.

A-Turf's Insured Warranty details:

- Repair expenses are reimbursable through insurance company in the event turf provider goes bankrupt.
- 100% of field is covered - for the entire warranty period - in case of catastrophic failure. No insured warranty program covers repairs related to field abuse, neglect or improper maintenance.
- There are no periods of non-coverage during the warranty period. While clients may expect continual coverage, be aware of insured warranties offered by our competitors that do have lapses in coverage.
- No portion of coverage is self-insured by A-Turf. Some competitors' insured warranties do require some self-insuring, which defeats the purpose of insured warranty - as it places risk on the system owner because they are dependent on the manufacturer-supplier being in business.
- The policy's total aggregate coverage is the highest in the industry.
- No annual deductible - per field - for warranty repairs. Some insured warranties have (per field) deductibles as high as \$25,000.
- Provider has an "A" rating from insurance industry's rating agency.

Choosing the strongest company with a superior system is still the best investment.

A-Turf is part of a corporate group with the industry's strongest financials. We have a proven track record of successful installations, an excellent credit rating, low overhead and a commitment to not overselling our capabilities. A natural extension of our client commitment is to provide this insured warranty.
